50+ Years of Glory: The Legend Takes a Major Step Forward

The legendary Land Cruiser, a truly dominant 4WD vehicle, has been routinely taming the wildest terrains on earth for over 50 years. In the process, it has become an essential part of the lives of a wide variety of people around the world. The legend continues with the Land Cruiser, the natural successor to the line and a continuing symbol of strength and reliability. And like its forebears, the king of 4WD is fully aware of its responsibility to do no harm to Mother Earth: The Pride of the World.

'LAND CRUISER WAY'
TO 4WD
SUPREMACY

Assertion of Individuality

With the Land Cruiser,
what you see is precisely what you get.
The boldly stylish front-end firmly
establishes this 4WD's steadfast,
regal presence.

Heart of Dignity

A ride in Land Cruiser speaks volumes of stability and power. The ease and comfort of driving is remarkably redefined in a Land Cruiser. On the threshold of power, performance and luxury, Land Cruiser becomes the manifestation of your pride.

A Symbol of Built-in Strength and Trust

Frame and body merge in an unequalled synergy of strength. The resulting union of rugged durability, rigid strength, and ride stability is unique among full-size 4WDs, forming the foundation and ensuring the continuity of the Land Cruiser legend.

Body Structure

Expanded use of high-tensile-strength steel realises a lightweight yet strong body

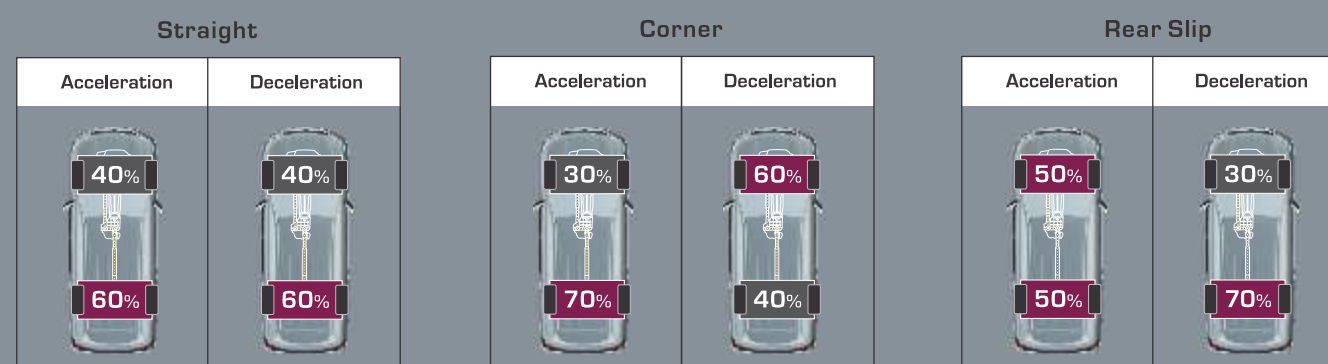

Rust-resistant steel sheeting helps prevent body corrosion and deterioration

All-terrain Performance Defines "King of 4WD"

Proven in the world's most gruelling driving conditions, Land Cruiser's advanced technologies let you explore with confidence and satisfaction that no other vehicle can match.

Full-time 4WD System

TORSEN® LSD in the centre differential instantly optimises front/rear torque distribution, regardless of whether it is straight path, corner or slippery surface, effectively maintaining vehicle stability in a wide variety of driving conditions. TORSEN® LSD is a registered trademark of JTEKT Corporation.

Identical front/rear-wheel rotation

Multi-terrain ABS

Multi-terrain ABS continually monitors engine revolutions and vehicle speed, instantly adjusting wheel-slippage regardless of surface conditions. Stability is achieved in both on and off-road driving.

Crawl Control System

Even on muddy or rocky surfaces requiring sensitive pedal control, this new system automatically manages both engine and brakes, maintaining a constant low speed and freeing the driver to concentrate on what's ahead. The system minimises wheel-lock and spin, enhancing vehicle stability and the capability to escape from tight spots.

Brake pedal and accelerator are automatically controlled

Toyota Electronic Modulated Suspension (TEMS)

Toyota Electronic Modulated Suspension closely controls the damping force of the shock absorbers to provide a stable body position and smooth ride comfort. The auto-levelling function on the electronically controlled rear air suspension ensures the vehicle height stays constant despite changes in car load. The vehicle automatically returns to the normal position once driving speed exceeds 12kmph on low and 50kmph in high modes.

Escaping from tight spots

On-road driving

Hill-start Assist Control

Hill-start Assist Control contributes to smooth hill starts by automatically applying brake pressure to help hold the vehicle whenever rollback is detected.

Without Hill-start Assist Control

With Hill-start Assist Control

A Boundless Source of Pure Energy

Harness the engine power with a specially developed transmission and the world's most advanced 4WD system. All with minimal impact on the environment.

4.5L V8 Diesel Engine 1VD-FTV

Toyota's first common-rail V8 also debuts a new twin-turbo system that delivers strong power while reducing fuel consumption as well as emissions.

6-speed Automatic

The newly developed 6-speed Super ECT's sequential shift control allows the driver to choose the shift range, delivering the driving control of a manual transmission.

Total Control is at Your Command

That distinct sense of authority that pervades the spacious cockpit of the Land Cruiser is a product of the expansive design that seamlessly blends high quality and user-friendly functionality.

It is a feeling of complete and absolute control, and is supported by a combination of advanced features:

- 6 DVD, 14-speaker JBL audio system with EMV screen
- Cruise control
- Push start/stop keyless system
- Steering wheel with audio, voice, and telephone controls
- Tilt and telescopic steering
- Optitron meters
- Multi Information Display (MID)
- Shift lever and knob with faux wood and leather
- Seat heaters for front and 2nd row seats
- Manual airbag with on/off switch for front seat passenger
- Power driver seat with memory function and power passenger seats

These elements ensure your complete command over the Land Cruiser.

You Deserve the Best

Expansive space and exceptional quality are exclusive features of the Land Cruiser cabin. All occupants benefit equally, sharing in the comfort and savouring the satisfaction. The Land Cruiser sets new 4WD standards in cabin comfort, with the world's most advanced air conditioning system and genuinely comfortable, easily configurable seating throughout.

4-zone Air Conditioning

The world's most advanced air conditioning system features 4-zone front / rear / right / left independent temperature control, while up to 28 outlets ensure a comfortable cabin environment for all occupants in all driving conditions.

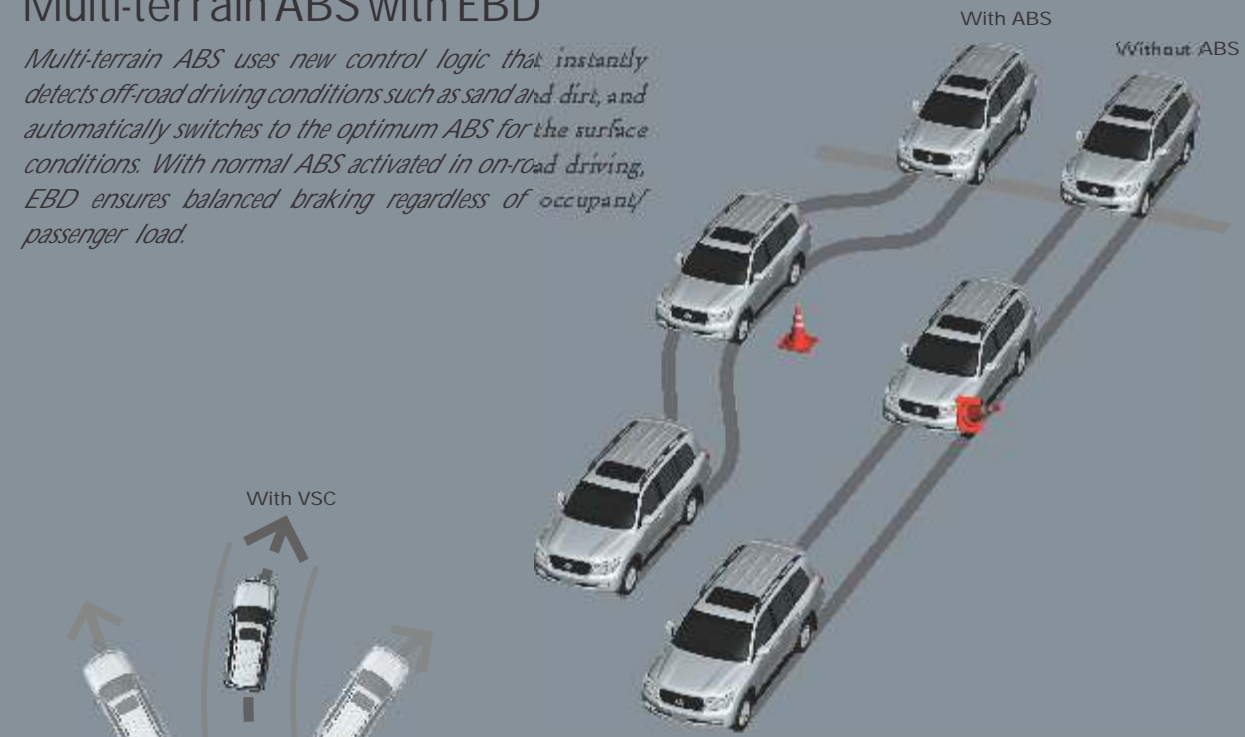

Innovative yet Fundamental- the Spirit of Safety

Occupant safety in the Land Cruiser is first-rate and comprehensive, with innovative technologies that assure relaxation, confidence and peace of mind.

Multi-terrain ABS with EBD

Multi-terrain ABS uses new control logic that instantly detects off-road driving conditions such as sand and dirt, and automatically switches to the optimum ABS for the surface conditions. With normal ABS activated in on-road driving, EBD ensures balanced braking regardless of occupant/passenger load.

Vehicle Stability Control

Vehicle Stability Control detects lateral skidding during cornering, and automatically controls engine output as well as braking force on each tyre, helping the driver to maintain control.

Ten SRS Airbags

Best-in-class collision protection for cabin occupant comprises Supplemental Restraint System dual-stage driver airbag/front passenger airbag, along with knee airbags for the driver and front-seat passenger, and SRS side and curtain-shield airbags for 1st and 2nd row outer-seat occupants. The front passenger seat is equipped with passenger detection system.

Front combination lamps enhance driver visibility and add to the front-end styling.

Rear combination lamps, LED-type tail and stop lamps are highly visible to the drivers behind.

LED high-mount stop lamp brilliantly alerts drivers behind to impending stops.

An impact-absorbing front hood/fender/cowl structure helps reduce impact on pedestrians.

Front seatbelts have pretensioners and 2-stage force-limiters, and 2nd row outer-seatbelts have pretensioners.

Perfection is in the Details

Nothing's been forgotten, inside or out, optimising convenience and comfort for all concerned. This is how the legend will continue to grow through the Land Cruiser.

Start/stop button makes starting and stopping of the engine a breeze

Smart Key eases entry to and exit from the vehicle

Efficient cooler box keeps your beverages refreshing, even on long trips

Power moonroof adds to interior spaciousness*

Large, newly designed Optitron meter's ideal positioning enhances visibility

Essential vehicle data is readily available on the multi-information display

Illuminated vanity mirrors in driver's and front passenger's sun visors enhance convenience

Overhead console allows easiness of storage and access to small items

Door trims feature a bottle and a pocket for A4-size documents

** Optional*

Seat Configuration

2nd row split 60:40 seats expand access space, making it easy to enter and exit the rear.

Seat-slide mechanism expands leg room for 2nd and 3rd row passengers.

2nd row seats tumble and 3rd row seats fold laterally to maximise luggage space.

Back Guide Monitor

The back guide monitor with a Back Camera and linked display on the EMV Screen makes parking much easier and safe.

Audio System

A premium quality audio system with EMV screen featuring 6 DVD changer with 14 JBL speakers for an out-of-the-world audio experience.
